SOLID YEAR

After a Solid Year of Misery, Bordering on Hopelessness, a Grateful Change Comes of a Sudden

Monticello, Ga.-Miss Tommie Bowden, of this town, says: "I suffered for one long year with serious womanly troubles-and it became so bad that I thought no remedy could cure my case.

I was nervous, at times, and had a sick headache so bad, that I could hardly bend over.

I tried two different kinds of medicine but they did me no good.

I then began taking Cardui, the woman's tonic, and I hadn't used it but one day before I felt a great change. I continued taking it, and I know it saved my life. I believe it is worth its weight in gold.

I hope every lady, who suffers from womanly trouble, will try Cardul, 1 praise it to every lamy I meet, and my sister also recommends it as the best of medicines for women."

Do you suffer from any of the numercus allments so common to women, such as headache, backache, sideache nervousness, sleeplessness, etc.? Have you that tired, weak, wornout feeling? If so, we urge you to take Cardul, the woman's tonic. It has not only relieved thousands of women suffering from serious womanly ailments, but bus also been found an excellent tonic for that tired-out feeling.

which hitherto have proved reliable.

Carranza is Determined.

It was said that Carothers informed Carranza that the summary expulsion of the Spaniards was viewed very gravely at Madrid, and without favor at Washington. Carranza replied that evidence of Spanish conspiracy against the revolution was overwhelming in all parts of the countryl, and that their expulsion was not only just but the part of wisdom. He pointed out that popular suspicion against these foreigners was so general and deep-seated that their expulsion at least would remove them from danger at the hands of an incensed soldiery. The troops generally are well under discipline, he explained, but individual exceptions were to be considered.

The policy of expulsion includes all Spanish subjects in Mexico. Many Spaniards are naturalized Mexicans and they are not embraced in the general order, although many of them have already fled the country, and others are under suspicion.

Refugees are Despondent.

Refugees are Despondent.

Pressed for confirmation or denial of information gained in Juarez Mr. Carothers said: "I am merely an intermediary in certain matters between the United States government and Gea. Carranza. The subject is one which I cannot discusa."

The harze colony of Spanish refusees in El Paso were deeply despondent over the situation. They are convinced that their properties, accumulated during a lifetime of work, will be confiscated and themselves deprived of their homes.

"Carranza says that you may return it investigation shows that you have kept out of politics," said a would-be commiforter to a Spanish merchant

"Yes, after our property has been stelen, we may return and build up another little fortune for some revolutionist to confiscate. No thanks," the merchant answered bitterly. "Oh. If Spain were only strong, this could not happen, but Spain is poor. She has no ships and but little money."

When the Spanish left Torreon, there was more than \$3,000,000 worth of cot-on ready for market. Much of it was used as fortifications and the remain-der left in the cotton warehouses. If Villa follows his plan of procedure in der left in the cotton warehouses. If Villa follows his plan of procedure in Chihushua and confiscates all of the Spanish holdings, this cotton will be taken as a part of the spoils of war. It will he impossible for the rebels to send the cotton south, as the federals control the district to the south. There is but one outlet for the cotton, unless it is manufactured at the Lafe cotton factory in Torreon. That will be to ship it to the border here and sell it it in the United States. But the Spaniards are planning to have legal action taken against anyone who imports the cotton through the custom house here and the title to the cotton will be settled in the state courts, while action is also liable for bringing stolen property into the United States, attorneys say. This will raise another question of whether it could be exported to the United States without danger of criminal prosecution.

Just where the Velasco army is, the federals do not attempt to say, but the forces of Velasco, Maure and Mans are somewhere east or Maure and Mans are somewhere east or southeast of Torreon, not very far away.
